Ref No: T310ADSV1.doc

Revision Date: 5/30/2002

Technical Data Sheet **T-310A Tepco Patch** **Vinyl Patching Compound**

T-310A Tepco Patch is a vinyl patching compound supplied as a paste in an easy to use squeeze tube. Tepco Patch is available in NEMA colors.

Typical Properties: Solids: 100%
Viscosity: Thixotropic paste
Density: 10.75 lbs/gal

Use: Simply apply Tepco Patch with a spatula until a smooth patch is obtained. Heat with a hot air heat gun until the patch is fully fused. The surface will be glossy.

Clean Up: Clean up unfused Tepco Patch with MEK, acetone.

Recommended Storage: To insure a longer shelf life, store in a cool, dry place, at least below 80°F.
